# Decorative Glazing

Urban | ENGINEERED DOOR COMPONENTS

## Decorative glass is one of the most crucial parts of your Engineered Door design. Glass designs give you the freedom to truly make your door your own, creating a beautiful entrance that leaves a lasting impression.

The choices are almost endless. We have a complete range of glass designs crafted using sparkling hand-cut bevels, vivid colours, delicately textured glass pieces, lead lines and subtle etching.

Our Custom Signature Glass range is a set range of classic and contemporary glass designs available in a full range of custom sizes to suit all door styles. With our Stained Glass Overlay (SGO) division, you can unleash your creativity with a completely handcrafted, custom design of your choosing. For subtle style and privacy, whilst maintaining natural light, try our etched glass options.

The range is completed by matching and complementary top-light and side-light glass options to create a perfectly balanced engineered door design, no matter the size of the entrance to your home.

As well as offering sublime aesthetics, our glass offers enhanced performance for your engineered door. Each glass unit is either double or triple glazed, manufactured using high-performing, low-emissivity glass and warm edge spacer bars, for enhanced thermal and sound insulation. Laminated glass is also available, to comply with the strict requirements of PAS 24.

# Doorstyles

Our range of decorative glass can be adapted to fit into multiple door styles and sizes. In this catalogue we have shown our designs in a range of the most popular, traditional, Engineered PVC doors.

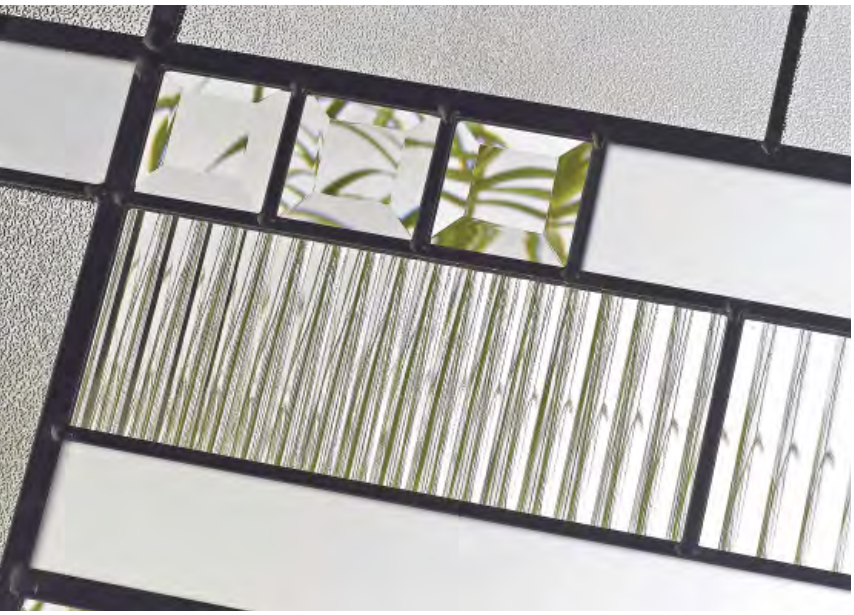
# Decorative Glass Ranges

**Over the years, decorative glass has been used as both an artform of story-telling and as a stand-out architectural design feature. From the ornate and intricate stained glass windows on cathedrals and churches, to the delicately etched glass common in Victorian architecture, decorative glass turns functional fenestration into a fabulous feature.**

**Perfectly crafted decorative glass designs are the perfect match for traditional doors.**

**From completely bespoke works of art to dazzling bevelled designs and beautiful etched patterns to exquisite textured pieces, our decorative glass range can bring statement drama or subtle style to your door.**

**For larger door styles and apertures, there is a full range of matching glass designs that's perfect for sidelights and toplights, bringing perfectly balanced design to your entrance system.**



## Custom Signature Glass

A beautifully crafted collection of glass designs, available in any custom size, to suit all engineered door styles. The signature range is crafted using traditional zinc and patina blackened cames, hand-cut bevels and stunning textured glass pieces. Once the design is complete, the decorative glass is encapsulated between two pieces of tempered glass to create a triple-glazed insulated glass unit.

## Stained Glass Overlay (SGO)

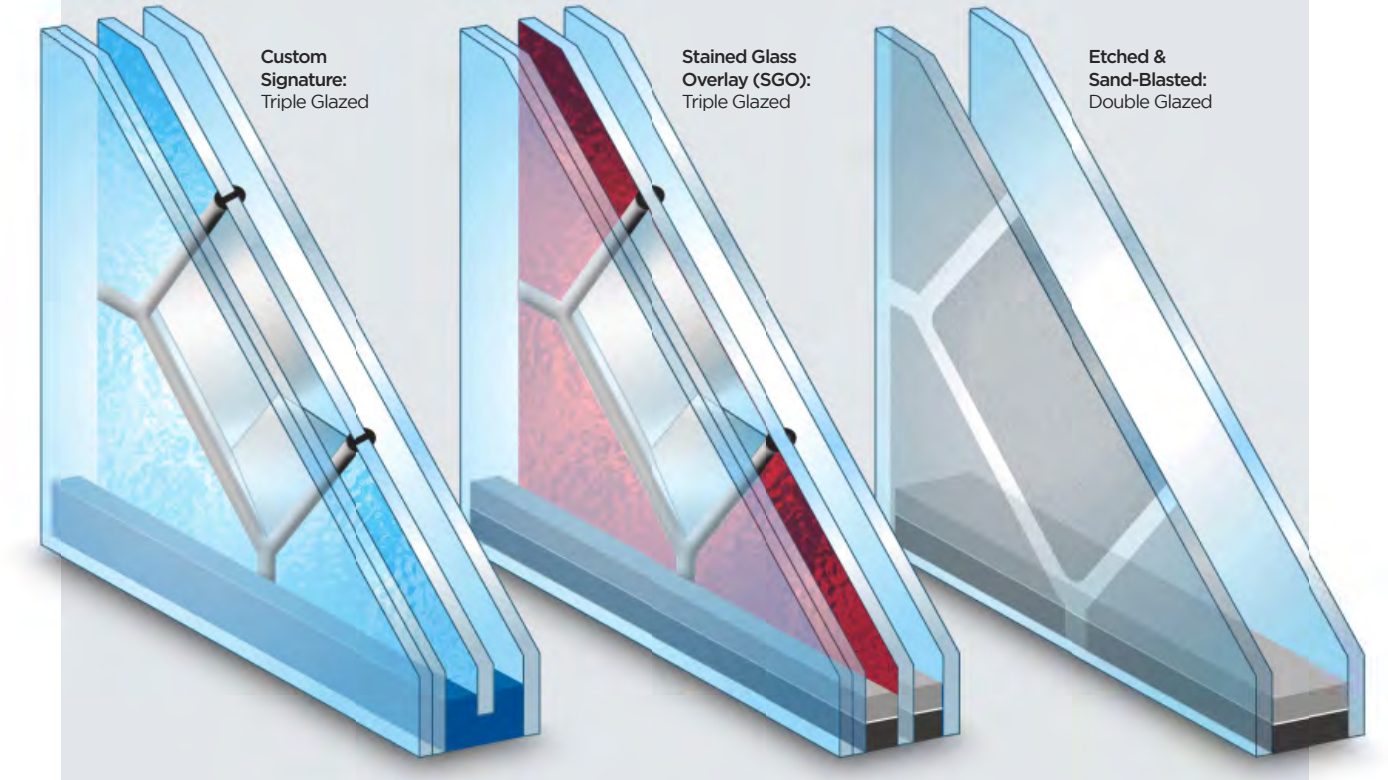
With SGO, you can really 'push the boat out' with your glass design. This method of decorative glass manufacture uses traditional craftsmanship to handmake completely bespoke designs. All the colour elements, bevelled pieces and lead lines are bonded to a single piece of tempered glass adding extra strength. With SGO there is a huge range of colour choices available to make any decorative glass design a unique work of art.  SGO designs are available on clear, Stippolyte, Minster or Satin glass depending on the level of obscurity and look required.

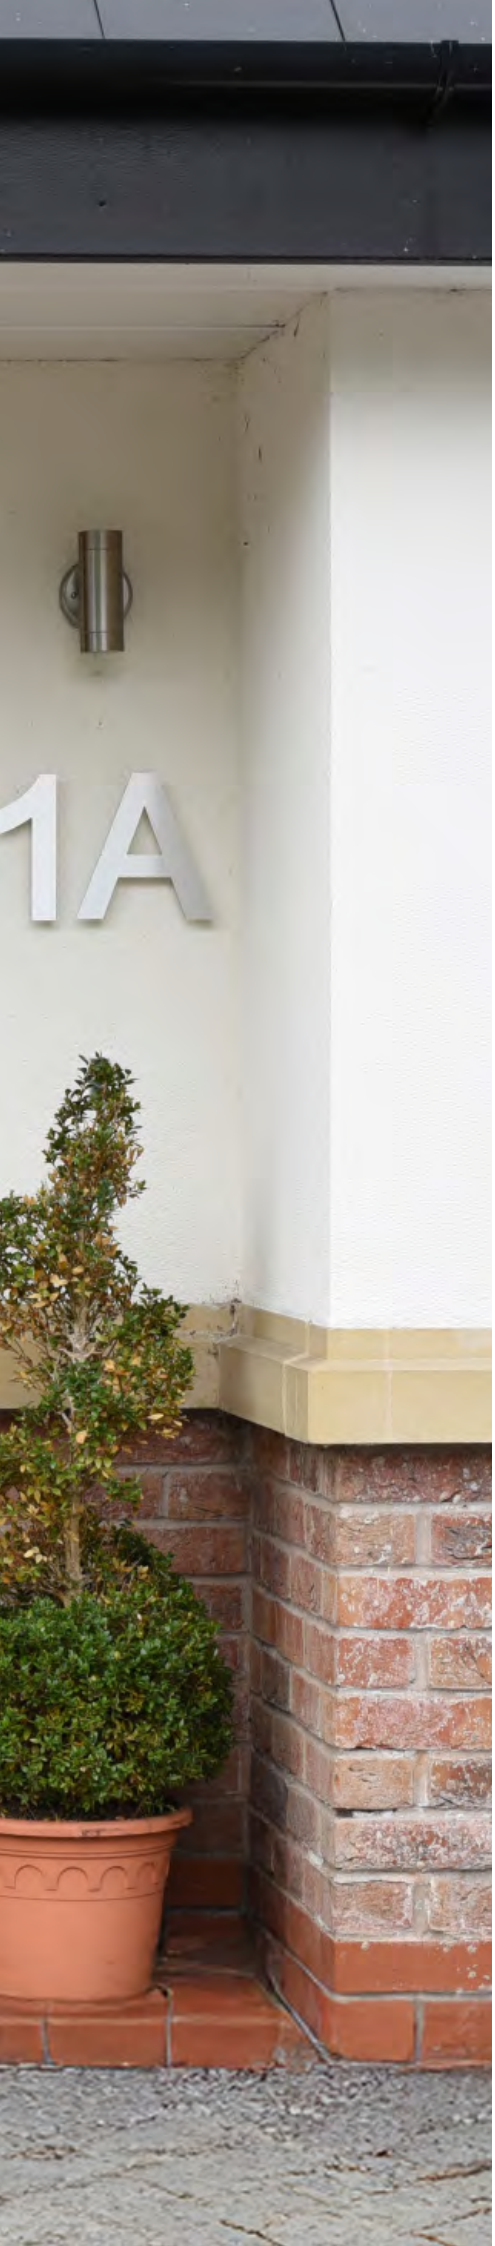
## Etched & Sand-Blasted Glass

Our etched range features clear and semi-transparent areas to maintain privacy and bring a touch of class to your glass. Choose a delicate repeat pattern like Mayfair or for clear keylines and borders, look at Strand and Kensington. For a door with extra flair, our beautiful etched motif designs are a stunning option, or choose custom etched letters and numbers for a bespoke finish.

## Glass Performance

All decorative glass options use high performance, low-emissivity insulated glass units with warm edge spacer bars. We offer a range of triple and double glazed unit options. Laminated glass is available as an optional upgrade to meet the stringent security requirements of the PAS24:2022 standard and Approved Document Q Building Regulations for security in dwellings.





# Sidelights & Toplights

Our full range of decorative glass is available with complimentary or matching sidelights, toplights and even for matching windows. Every sidelight is designed individually to match with the door glass design to ensure a harmonious and balanced aesthetic throughout the entrance system.
